

BAINBRIDGE ISLAND, WA · WEBSITE PROPOSAL

Island Paws.

Your dog, at home.

WHAT YOU'VE BUILT

A reputation that earned *itself.*

You didn't build this through advertising or promotions. You built it by taking care of dogs like family, sending daily photo updates, handling every breed and every need, and showing up the same way every single time.

Seventy-five families have noticed. Rover has noticed. That kind of reputation deserves more than a profile page. It deserves a home of its own.

WHAT WE BUILT

A website that *works as hard* as you do.

Every section was built from what we know about Island Paws: your services, your actual pricing, your real reviews, your family. Not a template. Yours.

Services

Doggy Day Care, Boarding, and House Sitting, each with your actual pricing and what sets yours apart.

About

Your family's story. The property, the dogs, the kids, and twenty years of doing this well.

A Typical Day

A day-in-the-life timeline showing exactly what dogs in your care experience from morning to night.

Reviews

All 75 of your Rover reviews, embedded directly on your site and filterable by service type.

Rates

Full pricing for every service, add-on, and scenario so clients can plan before they ever reach out.

Photo Gallery

95 photos from your Rover profile in a full-screen gallery — every dog, every memory, all in one place.

EVERYTHING INCLUDED

Built, live, and *ready* to go.

No subscriptions, no page builders, no lock-in. A real website, fully owned by you.

-
- ✓ **Fully designed and built — not a template**
Custom design built around your brand, your photos, and your voice. No two pages look the same as anyone else's.
 - ✓ **95 photos, organized and on display**
Every photo from your Rover profile pulled into a full-screen, browsable gallery. The dogs speak for themselves.
 - ✓ **All 75 reviews, embedded and filterable**
Sortable by service type so prospective clients find exactly the reassurance they need before reaching out.
 - ✓ **Mobile-optimized on every device**
Looks and works great on any phone, tablet, or desktop. No pinching, no broken layouts.
 - ✓ **Live on the web today**
Already hosted and accessible at the link above. Ready for a custom domain whenever you are.
-

Ready for self-editing, no code required

Post-handoff, we set up a simple CMS so you can update pricing, photos, and text yourself, any time.

WHAT HAPPENS NEXT

Let's make it *yours.*

The site is built, live, and ready. The next step is making it officially yours: a domain that's easy to share, a CMS so you can keep it current yourself, and hosting that holds up long-term.

Take a look at the live site, show it around, and let's find a time to talk.
